AIR PASSAGE / PROCUREMENT GUIDE

Industrial tubing inquiry checklist

Send a clear specification. Confirm the applicable product before ordering.

01 Product & material

Product family, material and model if known.

02 Dimensions

Inner diameter (ID), outer diameter (OD), units and required tolerances.

03 Length & quantity

Length per roll or piece, total quantity and quantity unit.

04 Operating medium

Exact medium; include fluid concentration where relevant.

05 Pressure & temperature

Working pressure and temperature range, with units and conditions.

06 Installation

Fittings, routing, bending, movement and available installation space.

07 Documents

Required datasheets, drawings, standards or supporting reports.

08 Purchasing details

Destination, delivery timing, packaging and other requirements.

09 Contact

Name, company, country and business email.

Before procurement

Dimensions alone do not establish suitability. Confirm the selected model, operating limits and compatibility against the applicable datasheet. Burst pressure is not a working-pressure rating.
